Description

The villa is located in the exceptional enclave of Cala Vinyes, Calvia, on the southwest coast of the island, a place of great scenic beauty with beaches of turquoise waters and fine white sand just a few minutes from the prestigious marinas of Port Adriano and Puerto Portals and 15 minutes from Palma.

With 947 m² of floor space and an innovative contemporary design, the entire house is oriented towards the sea offering dazzling views from every corner. The 2.003 m² plot on which it stands also has easy direct access to the sea, a privilege that very few properties have.

It has been developed on two levels plus a basement floor connected by stairs and lift where the high technology, the first qualities and the optimal distribution of all its spaces give as a result a first class property, spacious, luminous and comfortable in equal parts.

All the spaces are bathed in natural light thanks to the enormous windows that embrace the house. The main floor houses behind a large entrance hall, a generous continuous space, occupied by the living room with fireplace, dining room and modern fitted kitchen, rooms that have been delimited by traditional stone walls in perfect contrast with the most modern materials and which allow the light to flow freely. All this space opens up to the magnificent outdoor areas with outdoor living rooms, terraces, garden and infinity pool that merges with the sea; privileged areas of the house that function as viewpoints overlooking the blue Mediterranean and where in the evening you can receive the sun's kindest rays.

The second level is entirely occupied by the sleeping area with the master bedroom with a large bathroom, dressing room and the sea peeping through the large windows. Three further bedrooms with en suite bathrooms and magnificent sea views complete this level. The large basement level houses a guest flat for the absolute comfort of family and friends as well as a gymnasium, spa, sauna, Jacuzzi and cinema room.

The magnificent property has a private heliport space on the rooftop and a large garage for up to six cars.
